

Leica Zeno GIS series

An Easy Mobile
GIS solution

- when it has to be **right**

Leica
Geosystems

Your Vision: Easy-to-use Mobile GIS

Welcome to Leica Zeno GIS It doesn't get any Simpler

With Leica Zeno GIS hardware and software solutions it has never been so easy. Manage and maintain assets, inspect infrastructure, respond to emergencies and conduct as-built and incident mapping with ease.

4 steps to Easy Mobile GIS

... let us inspire you

Whether you want to map the location of a power pole, the run of a pipeline, the area of a building or a farm; whether you are downtown or out in the country; whether you want to collect new features, or update and maintain the data from your Enterprise or Geographic Information System: For collecting, verifying and updating geographic data or an as-built of civil infrastructure models, Leica Geosystems offers the right solution – with seamless data exchange between field and office, for GIS or CAD workflow.

When the data really counts, Leica Geosystems offers the right combination of hardware and software: Field-proven sensors use up-to-date technologies including terrestrial and satellite data collection and navigation, distance measurement devices, scanners and airborne sensors. Our wide range of software solutions for field and office usage is compatible, scalable and flexible, with the accuracy and reliability that you need.

When it has to be right.

Total Quality Management – our commitment to total customer satisfaction.
